One press. Five ways to create.

xTool WonderPress 3D Auto Heat Press

Product Description

Dimensions: 16.5" x 21.6" x 16.5"
Pressing Size:
- **Heat Press Module:** 15" x 15"
- **Craft Oven Module:** 15.6" x 6.2" x 3.1"
- **3D Form Module:**
  - Vacuum Forming Area: Up to 9.8" x 7"
  - Maximum Forming Height: Up to 3.5"

Temperature Range: 176-410°F (80-210°C)
Time Range: 1 - 999 seconds
Weight: 48.5 lbs
Pressure Range: 44 - 220 lbs
Maximum Material Thickness: Up to 3"
Heating System: 2X heating tube denisity
Operation: Automatic pressing & lifting
Electrical: AC 100-120 V, 1150-1650 W, 50/60 Hz
Warranty: 1 year
Software: xTool Studio mobile app with cloud-based presets

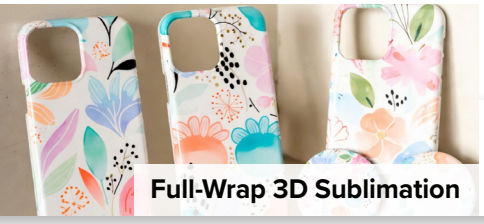
Meet the **xTool WonderPress 3D Auto Heat Press,** a versatile solution for makers ready to do more with their equipment. Featuring a 15" x 15" heat press area, adjustable settings, and automatic pressing and lifting, WonderPress helps you create custom apparel, personalize products, and take on a wider range of heat transfer projects.

With interchangeable modules, WonderPress brings five creative techniques into one system: heat pressing, 3D sublimation, vacuum forming, DTF curing, and craft baking. Whether you're growing your product lineup or getting started in personalization, WonderPress gives you more room to experiment, create, and grow without needing a separate machine for every application.

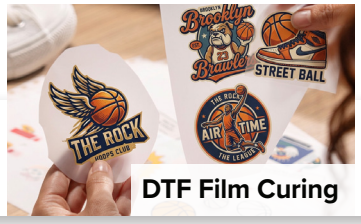
3 Modules: All-in-One Press

DTF Transfers

Sublimation



Full-Wrap 3D Sublimation



DTF Film Curing

Vacuum Forming

Versatility for every project.

Explore five creative techniques, from heat pressing and 3D sublimation to vacuum forming, DTF curing, and craft baking.

Consistent, customizable finished results.

Adjustable temperature, time, and pressure help you achieve quality transfers across a variety of materials.

Streamlined workflow.

Automatic pressing and lifting, built-in presets, and interchangeable modules help simplify projects and expand your product offerings.
