+ The **Epson SureColor F1070** is a compact and versatile printer designed for both Direct-to-Garment (DTG) and Direct-to-Film (DTF) printing. With DTF transfer film capability, it allows printing on a wide variety of materials, including uniquely shaped items.

Compactly built with a 28" design, the SureColor F1070 fits perfectly into smaller shops, home offices, workshops, and confined spaces. This makes it ideal for individuals or businesses producing 100-200 t-shirt prints per month. The printer's max platen size of 10" x 12" enhances its versatility for garment printing.

The Epson SureColor F1070 offers the perfect combination of efficiency, quality, and compact design for any small-scale t-shirt production operation.

Product Benefits

2-in-1 Printer.

The F1070 printer is designed for both Direct-to-Garment (DTG) and Direct-to-Film (DTF) printing, allowing you to choose the method that works better for different projects while saving space in your shop and increasing productivity!

Print in White!

With the CMYK + W UltraChrome® DG2 Ink, you can print vibrant colors and white onto any color garment! It delivers vibrant, detailed prints with incredible clarity everytime.

Endless possibilities!

Expand your product offering with the F1070! Print directly on t-shirts, uniforms, hoodies, sportswear, home decor, kids wear and more! PLUS with DTF, you can print on non-fabric items and unique shapes.
