

BRAIDED KEY RINGS

SG236BR, SG237R, SG238B, SG239BL,
SG240BL, SG241BR, SG242R, SG243B

Settings

- **Time:** 2 minutes
- **Temperature:** 365° F
- **Pressure:** Very Light

Fabrication Process

- Affix the transfer to the product using heat tape.
- Place sacrificial paper on the heat press bed.
- Set product on the bed with the transfer paper side up.
- Place additional sheet of sacrificial paper over the insert.
- Lightly press the product.

Note:

Wait for substrate to cool before peeling paper off.
