

Drink Distinctively.

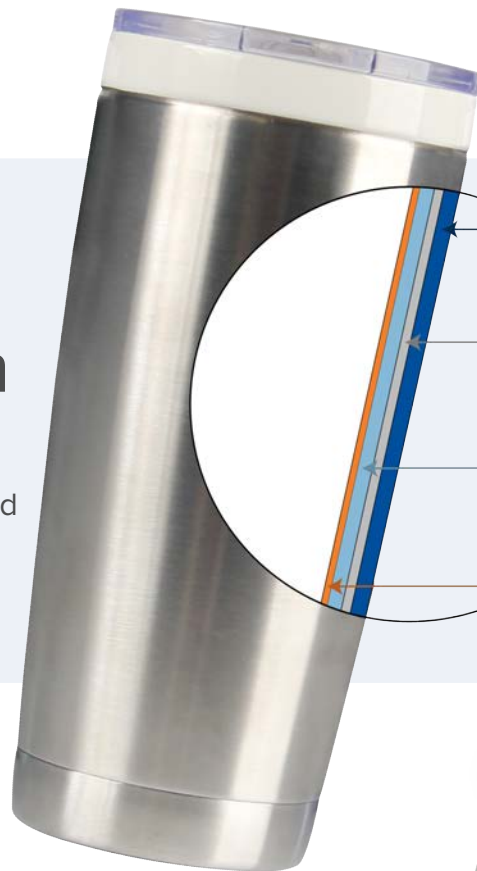

Double Wall Insulated Stainless Steel Drinkware with Ceramic Coated Liners.

CeramiSteel Drinkware

We combine the strength of stainless steel with the softness of ceramic creating an unparalleled drinking experience. Vacuum insulation keeps beverages hot or cold with incredible temperature retention. These products offer a drinkware option without the metallic taste and without trapped smells or flavors. The products are laser engravable and UV printable.

Four layers of protection

Stainless steel outer layer, vacuum-sealed air gap layer, stainless steel inner layer, and finished with a ceramic layer.
