STANDOFFS MOUNTING KIT

CAP AND BARREL

Installation Instructions

*Everything you need to mount
signage, artwork, posters or awards.*

standoffsystems.com

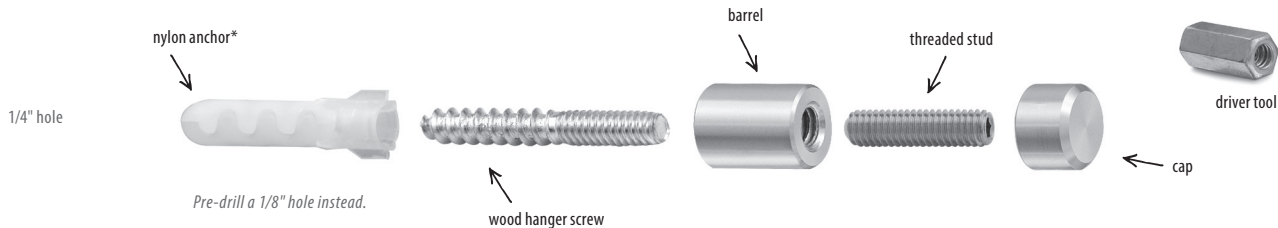

INS-2-R072926

HERE'S WHAT YOU'LL FIND IN YOUR KIT:

NOTE: Your kit may include a second threaded stud to accommodate different material thicknesses.

TIP 1: A wood hanger screw driver tool is included to drive the screw into the nylon anchor or wood.

TIP 2: We recommend 7/32" holes in your material to give you more freedom for aligning your panels.

- 1 Use the holes in your material as a template to mark holes on your mounting surface.
- 2 Pre-drill 1/4" holes in your surface. Insert **nylon anchors** into the holes and tap them flush.

- 3 Using the included **tool**, drive your **hanger screws** into the nylon anchors, then tighten **barrels** to surface.

- 4 Screw **threaded studs** into your barrels, then place your panel in position and thread on **caps** until snug.
