

TOP 5 Reasons to buy a UniNet iColor 650 Digital Color Transfer Printer

01 THE NEXT GENERATION PRINTER.

The iColor 650 is fast. REALLY fast! It prints up to four-times faster than previous models, allowing you to create more high-quality transfers in less time and increase your production.

02 DO MORE FOR LESS.

More features, more versatility, and faster speeds, all with lower printing costs and hassle-free maintenance. The iColor 650 comes with a high-yield white toner cartridge that delivers up to 10,000 transfer pages.

03 DO IT ALL... IN A SINGLE MACHINE!

Easily swap back and forth between regular and specialty cartridges, eliminating the need to purchase multiple machines! This printer does it all, including white overprint for textiles, white underprint for direct printing applications, optional toner-based sublimation, fluorescent and metallic printing, and so much more!

04 UNLIMITED IMAGE OPTIONS.

With the ability to use white in your graphics, the products you can offer is really endless! Produce stunning full-color graphics and transfer to virtually any dark or light-colored textile or substrate. With an iColor 650, you'll be able to print in stunning full-color on almost anything!

05 CUTTING EDGE TECHNOLOGY.

The iColor 650 comes with five toner cartridges for full color and white printing and is virtually maintenance free. With WiFi connectivity built-in, you'll be able to print fast, high-quality 1200 dpi resolution transfers from anywhere in your home or office.
