

WOOD REFRIGERATOR MAGNETS

SG270WD, SG271WD

Accent your refrigerator or workspace with these natural wood magnets. Perfect for 'Save the Date' reminders or displaying a favorite quote. Engineered to be laser engraved, UV-LED printed or Heat Transfer printed.

Laser Recommendations

If your laser system has an air assist, we recommend setting the air assist to a low setting when engraving woods as too much air may disperse excess wood residue.

Raster Engraving Recommendations *(minor adjustments may be needed to achieve optimal results)*

- 75 watt laser | 40% power | 80% speed | 600 DPI
- 60 watt laser | 50% power | 80% speed | 600 DPI
- 40 watt laser | 60% power | 80% speed | 600 DPI

UV-LED Printing Recommendations

To prepare product for printing, wipe down surface with 70% isopropyl alcohol and a clean cloth.

No adhesion promoter needed with these natural wood pieces.

Send image to printer.

UV-LED printed Colorshop Woods results will be vibrant and durable without the use of adhesion promoters.
