

Maximize time and space with an additional work station. The Dual Air Fusion IQ® provides groundbreaking A and B workstations that operate independently or in unison, optimizing performance.

PRODUCTIVITY OPTIMIZED

WORK SMARTER, NOT HARDER

Built for ultimate heat printing efficiency, the Dual Air Fusion IQ® provides the functionality of two presses with dual 16" x 20" workstations. Program the press to preheat on station A and complete final application on station B. The press automatically adjusts time and pressure as it shuttles between workstations. It's a smooth, quiet, effortless operation controlled by the push of a button and tap of the foot pedal. Simply power on and choose between dual or independent operation.

The Dual Air Fusion IQ® also comes standard with a Laser Alignment System, assuring your job is on target every time. The laser system seamlessly integrates into the Dual Air Fusion's workstations and is controlled entirely through the touch screen.

DUAL AIR FUSION IQ®

PERFORMANCE

- Dual platen shuttle operation
- Laser Alignment System
- User-safe push-button / foot pedal operation
- Auto, semi-auto, or manual mode
- Touch screen control system with stylus
- Heat-free work surface
- Corrosion-resistant framework
- (2) 16" x 20" Quick Change lower platens

Get the most out of your Hotronix®. See page 38 to find out what Quick Change platens are available for the Dual Air Fusion®.

SPECS

220 Volt • 20 Amps / 3500 Watts

Requires air compressor (not included) with minimum 1-horsepower and 5-gallon hold tank.

SHIPPING

45" x 45" x 30" • 410 lbs

\$7,500

One or more patent and/or patents pending.
